

# PROJECT UPDATE

## WALL 6 - LOOP 101, OLIVE AVENUE TO PEORIA AVENUE

After balloting adjacent homeowners on the northern edge of the Springer Ranch Subdivision, the Arizona Department of Transportation (ADOT) will end the noise wall at the "property line" (see exhibit below). The decision was based on votes received.

Due to modifications in the original design, ADOT provided eight property owners along Beryl Avenue with a ballot to determine if the new 20-foot wall should wrap along the northern edge of the subdivision or end at the property line. All ballots were weighted equally.

Construction of this project is anticipated to begin in late 2010/early 2011 and continue through 2011. The construction schedule will be determined after the construction contract is awarded, and updates will be provided as the project progresses.

For questions, please call 602-787-3927, email [ADOT@hdrinc.com](mailto:ADOT@hdrinc.com), or visit the project Web site at [www.valleyfreeways.com](http://www.valleyfreeways.com).
